Nothing but me and the sun
Heading down this way
And I aint seen anyone
Cept the devil man hiding his face
Knows where I've been
He's on the outside looking in
It must have been a hundred nights
And I'm still chasing the sun
I must have seen a hundred signs
But I can't read anyone
Where do they go
Will there be answers round the bend
Round the bend if this road ever ends
There's gotta be something else out there

Whos gonna wake me up
Whos gonna hold my hand
Whos gonna make my bed with me
Before I even ask
Whos gonna make me laugh
Whos gonna chase my blues
Whos gonna make me feel complete
Now I aint got you

I only ever sing one song
And it's running through my mind
It's been here so long now
Can't tell if it's wrong or right
Or if I care
As long as there's someone out there
Out there, some place that I can get
There's gotta be something else out there

Whos gonna wake me up
Whos gonna hold my hand
Whos gonna make my bed with me
Before I even ask
Whos gonna make me laugh
Whos gonna chase my blues
Whos gonna make me feel complete
Now I aint got you
