Never felt this far from home
Never left the love so strong
Now the world is stuck on pause
Cause without you motion's gone
And I hope this don't sound wrong
But the days seem twice as long
And the pain just don't feel right, no
If its mine alone

And maybe you sit at the window waiting
Maybe that day is just repeat and rewind
Maybe the truth is the walls are caving in
Just say it, say its so
Say it, say its so
Say it, say its so
Say it, say its so

Now I walk through endless nights
Let the streetlights pass the time

And even though your call don't come, no
I still pray you're by the phone
And I know this don't sound right
But I hope you hurt like I
Then I know you sympathize
You're my peace of mind

And maybe you sit at the window waiting
Maybe bad days just repeat and rewind
Maybe the truth is the walls are caving in
Just say it, say its so
Say it, say its so
Say it, say its so
Say it, say its so

Oh baby, when you look at the ceiling
On your back before dreaming
Will I be last on your mind?

Oh baby, when I look at the ceiling
On my back as I'm dreaming
You're the first thing on my mind

Say it, say its so
