Valerie's dancin' on the room above my bed, you know  
For all of the world below to see  
Valerie's leaving in a car outside my house, you know  
Such a shame she's not with me and all the pretty  
things  
And all the love my heart would bring  
I would give my whole life to her

Valerie loves me

Valerie's driving in a car around my neighborhood  
She's thinking of all the men she'll meet  
I could only hope for a stolen moment of her thoughts  
Between the walk to the club  
And all the drinks she'll have in a crowded room  
Where everybody leaves too soon, I only hope that she  
remembers me

Valerie loves me

Valerie loves me

Valerie's lonely in an apartment down the street you  
know  
And her hair has turned so gray  
But she's so happy for the memories she has you know  
She can believe in the day when love was on a string  
And she could have that anything she ever wanted  
But she can't have me

Valerie loves me
