Do you want to go dry now
So that I can say we're holding on tomorrow?
Unforgivable faults, nonsense

Do you want to go dry now
So that I can say we're holding out today?
Unforgettable starts, ahhh

I wonder if I could tie the ocean to you knees

Do you want to go dry now
So that I can say we're holding on tomorrow?
Unforgivable faults, nonsense

Do you want to get down now
So that I can say we're holding out today?
Unforgettable starts, ahhh

I wonder if I could tie the ocean to you knees
To your knees, if you please, to the bath at your feet
'Cause it's an experiment, experiment with me
To your knees, if you please, to the bath at your feet

I said, "Don't put up a fight 'cause I know we all get
older."
Say, "Don't point out the faults 'cause you know I'm
always older."
Said, "Just put out the fight 'cause by now we've gotten
older."

To your knees, if you please, to the bath at your feet
I wonder if I could tie the ocean to you knees
'Cause it's an experiment, experiment with me
