

Mates Of State "Drop And Anchor"

Visit "[Drop And Anchor](#)" on MotoLyrics.com

It's the way I see it, and oh what a point of view
It's the line that calms us all, like a bell on fire
It's the line that calms us all, and how we love the call
Aim the sound at me

The small wall, the long haul up
Where candor always leads the conversation
The center of cities, it is divided
But it has no imperfection

It's the wall that holds us there
I'm thinking I can fly now
It's the wall that holds us there
As the city draws us down
I hear Mexico

Above all, are we out for contact?
Oh, can't I

And I could be an anchor
Drop me in the bay and watch me hold you steady

It's the way I see it and oh what a point of view

And I could be an anchor
Drop me in the bay and watch me hold you steady

Hold you
It's the way I see it
