I feel right all the time
I feel right all the time
I feel right all the time
I am right all the time

(Well, oh well let's call it quits)
Runaway forever
Cut me some slack
It's my side of the mountain

(Well, oh well let's call it quits)
Right away if I could
And if I might
It's my side of the bed

I feel right all the time
I am right all the time

(Well, oh well let's call it quits)
Runaway forever
Cut me some slack
It's my side of the mountain

(Well, oh well let's call it quits)
Right away if I could
And if I might
It's my side of the bed

I color the sky with you
I let you choose the blue
I color the sky with you
I let you choose the blue
I color the sky with you
I let you choose the blue
I color the sky with you
I let you choose the blue
