"Lullaby Haze"

why are you making it harder?
why are you driving it home?
I am not the broken hearted
I am just a lullaby haze

you can pretend you were let down
we all know the soft seldom survive
you can pretend you were let down
we all know the soft seldom survive

I am not the broken hearted
I am just a lullaby haze

(you can pretend you were let down)
you know its just getting closer
(we all know the soft seldom survive)
but we got a day to know the name
(you can pretend you were let down)
when you get up in the morning
(we all know the soft seldom survive)
you waste my trouble all the same

I am not the broken hearted
I am just a lullaby haze
