This can only mean I love you  
When your being just a little late upsets me  
And I feel my heart's indifference disappear  
And I worry that you might not come at all

It can only mean I love you  
When a simple thing you say is all it takes to  
Make an evening that was just like any other  
Glow and sparkle with a sudden touch of magic

And to think that not so long ago

When I would talk to someone  
I'd say I lost belief in love forever  
I'd never dream again  
I finally knew better  
Than to play the fool for love  
Look at me now

I just realized I love you  
And already it's too late to turn around  
For a while I tried to find my heart's indifference  
But it's gone, what can I do now but surrender  
To love
