When you say goodbye to the love that we knew
This you can be sure of
I will torch on for you
I will carry my torch for you

When you break somebody's heart
Nothing much left to do
How so-ever sadly
I will torch on for you

Somewhere in the back of my heart it's there
And every day it finds me then reminds me

I will bear my cross
I will bear your cross too
I will pine forever
I will torch on for you
I will carry my torch for you
