You sit upon your dark mountain  
Thinkin twice for things that don't need  
So much thought just take a minute

How long until you free fall  
Back to earth with all your maybe's  
Turn arounds and I'm not ready's

I'll take it on  
I bet my avalanche couldn't crush it all  
Don't you dare try to drag the world x2  
(La Da's)

More eye's to watch your mistakes  
Always know the more the marry  
Never guess, I'm always in your light

Now we're stepin on the pavement  
Heads up high the walk is steady  
Every person needs a second glance

I'll take it on  
I bet my avalanche couldn't crush it all  
Don't you dare try to drag the world x2  
Oh ooo's  
Relax your mind  
It's gonna be ok  
Relax your mind  
It's gonna be ok  
I swear x3  
Sing it with me

I'll take it on  
I bet my avalanche couldn't crush it all  
Don't you dare try to drag the world  
A Come now  
I'll take it on  
I bet my avalanche couldn't crush it all  
Don't you dare try to drag the world (La Da's)
