Fell with a head full of stars  
Just a glance can send me tumblin down your hole  
Where I'm at we only know.  
Let's explore

I take a left at old flames  
Now I'm steppin down the stairs of heartbreaks  
I hear a beat comin up  
It's your heart

How long will I roam around  
Without taking a chance  
Without taking a chance  
With you x2

I'm on fire from head to toe  
But I burn with grace and love straight from your heart  
Just a few words before I melt  
I need you

How long will I roam around  
Without taking a chance  
Without taking a chance  
With you

How long will I roam around  
Without taking a chance  
Without taking a chance

What I never said, I think I should say it now  
On the count three listen up x2  
To me, 1... 2... 3... love

I need some love right now  
No maybe's baby some love right now ooo  
I need some love right now girl x2

Here I come

Down Down Deep  
Lights aren't just above

The brighter things can hide  
Move your feet  
If you wait to live  
Her lights might fade away
