I been pullin strings
In a dungeon full creeps now I'm the Prince freaks
Call me the worst of man, I might look all used
But that's cause my war ain't through

Patience now
I clean up quiet nicely
One light, you'll get to see my nice
Patience now
I clean up quiet nicely
One light, you'll get to see my nice
Side
So get down get down get down let's go

I been rollin deep
In a Winnie made of bee's now I'm the king of freaks
Dress like a social mess, far from being cute
But that's cause my war ain't through

Patience now
I clean up quiet nicely
One light, you'll get to see my nice
Patience now
I clean up quiet nicely
One light, you'll get to see my nice
Side
So get down get down get down let's go

You been givin fright with your low down name
I kinda like who I am
You don't know my worth
But you know how I work
Patience please an you'll see me

I been sheddin things
With some ammo made of free, now I'm the face of
clean
Call me the best of man, that's just how you are
But sorry you lost this war
