Things one sways always come front and center like a
army man
But I ain't green and you ain't green and we ain't
standin still
Thought those lies would still slip by on the real I'm
talkin man
If there no trust then there no rush for us to be friends

15 in, it took the law men to make me feel the pull
Dragin yo feet along the weak like a shipwreck on the
shore
Supply more eye's with stealth to cloud minds I'm done
with the back up dance
I still got love if you got love but if not then oh well

Mmmmm
I guess I'll get on
Cause the worst ain't that strong
To keep me from learnin
Who is Friend of Foe

Full of waste you try to debate what hell got us so bent
Close both eye's think back in yo mind that's where the
evil lives
Some still fly an float with your lies no more for this
grounded man
Cause I've been pushed and I've been pulled and the
worst it's from a friend

Mmmmm
I guess I'll get on
Cause the worst ain't that strong
To keep me from learnin
Who is Friend of Foe

Mmmmmm
I guess I'll get on
Cause the worst ain't that strong
To keep me from learnin
Who is friend of foe
