Let's say the things we mean
Cause every little word needs truth
Raven the day or soar free
Just keep a line to the brave
There's a mind out there, thinking about you
There's a mind out there, askin where you been

Don't say the worst control it
Can't heal the soul if the minds dead
Force better tears at the mend
And always tell a friend how you been
There's a mind out there, thinking about you
There's a mind out there, askin where you been x2

It's a long way up, up there, up, up there
I been sending lines to all my friends
Trying to keep the best of life up hill
If I break the line before I end
Please tie it back cause I don't know when I sin
My friends
It's a long way up x2
And there's a mind out there
Thinking about me
There's a mind out there
Thinking about you
There's a mind out there
Thinking about us
There's a mind out there askin where we been
