This song did not chart

Deep in the night I climb the stairway to the sea
And pretend you are there beside me, so close beside
me, watching the sea
I see us there upon the stairway to the sea
Where the mist softly kissed two lovers, hiding from
others our love by the sea

CHORUS

Why try to find a new love when your voice keeps
calling me?
I'm just a lonely pris'ner of the stairway to the sea
And there you'll find me waiting for the day of your
return
But till that day how memories can burn

This is my prayer upon the stairway to the sea
That you soon will be there before me, whisp'ring
"Adore me" there by the sea

And there you'll find me waiting for the day of your
return
But till that day how memories can burn

This is my prayer upon the stairway to the sea
That you soon will be there before me, whisp'ring
"Adore me" there by the sea

There by the sea
There by the sea!
