Some of them come now  
Some of the running  
Some of them looking for fun  
Some of them looking for a way out of confusion

Some of them don't know where to be  
Some of them don't know where to go  
Some of them trust their instincts  
That something's missing from the show

Some don't fit society  
Their insides are crying low  
Some of them teachers squashed the flame  
'Fore it had a chance to grow

Some of them embers still glow  
Them charcoal hushed and low  
Some of them come with a hunger suppressed  
Not fed them feel the death blow, yo

Young man, control in your hand  
Slam your fist on the table  
And make your demand  
Take a stand

Fan the fire for the flame of the youth  
Got the freedom to choose  
You better make the right move

Young man, the power's in your hand  
Slam your fist on the table  
And make your demand  
You got to make the right move

"Youth is the engine of the world"  
"Youth is the engine of the world"

Storm the halls of vanity  
Focus your energy  
Into a laser beam  
Streaming shattered light  
Unites to pierce between the seams

And it seems  
The world open peering

The children see  
Rapid fire for your mind  
Half the truth is just a lie  
They rub me the wrong way  
They say their way or fall behind

Seventeen disconnect left out  
The concept as to why  
There's a spiritual emptiness  
So the youth them get vexed  
Skip class and get wrecked  
Feel with music and cigarettes  
To fill the hole in their chest!

Young man, control in your hand  
Slam your fist on the table  
And make your demand  
Take a stand

Fan the fire for the flame of the youth  
Got the freedom to choose  
You better make the right move

Young man, the power's in your hand  
Slam your fist on the table  
And make your demand  
You better make the right move

You got the freedom to choose  
You better make the right move  
You got the freedom to choose

Young man, control in your hand  
Slam your fist on the table  
And make your demand  
Take a stand

Fan the fire for the flame of the youth  
Got the freedom to choose  
You better make the right move

Young man, the power's in your hand  
Slam your fist on the table  
And make your demand  
You better make the right move

"Youth is the engine of the world"  
"Youth is the engine of the world"

"Youth is the engine of the world"  
"Youth is the engine of the world"  
"Youth is the engine of the world"
