"Charge It To My Head"

Visit "[Charge It To My Head](#)" on MotoLyrics.com

I was looking back on yesterday
I saw my favorite photograph of you and me
You were my pride and joy
The one my heart beats for
And you will always be
The apple of my eye

(Chorus)

If ever I forget to say I love you
Please believe I do
If ever I forget to say I care
If ever I forget to say I miss you
When we're apart
Charge it to my head and not my heart

I found the picture that you drew of our family
I couldn't help but notice
You were waiving goodbye to me
I realized that we are often apart
But I want you to know
That you are close to my heart

(Bridge)

You will always be a very special part of me
Everything I do, I do for you
