Visit "[They Must Know](#)" on MotoLyrics.com

In him we are sheltered
And our souls are at peace
though the storms may rage in our lives
Our hearts are at ease

Nothing feels so glorious
Nothing feels so wonderful to be well deep within
Need not worry for the task has been

CHORUS

(He loves you)Oh how it feels to be loved (Then explain
it) I can't explain
They must know
(They must know) And i spread it about till they find out
No matter how hopeless life may seem
When we do wrong he'll redeem
(They must know)And I'll spread it about till they find
out
They must know
While there is much in life
That we can't be sure of
God's word assures us of much truth
And his grace is unheard of
With no answers to the present
And no regrets to the past
Still we live born again
Need not worry for the task has been

CHORUS

They must know

(REPEAT)

He loves you)Oh how it feels to be loved (Then explain
it) I can't explain they must know (They must know)
