"I Said"

Visit "[I Said](#)" on MotoLyrics.com

I need the calls in my life you see
Now the phone lines are down
But together just you and me
Can rewire this town
Some days I feel like I'm doing time
I know you're just as confused
This could become the perfect crime
We're off with nothing to lose

[Chorus]

And I said (I said) I said this will I said (I said)
You take the wheel you said (you said) you said no deal
but I said (I said)
I said(I said) X2

Now we could take over the whole world
Or at least a small piece
It's not a gun but some hair you twirled
And then you called the police

[Chorus] X2
