And it all comes down to hope  
Came down on me  
I'm beggin' you now  
I'm beggin you please  
Comes down to hope  
Came down on me

Someday spare change  
It won't feel the same  
Stand up real tall  
And wait to fall  
Thoughts so strong I feel them when you're gone

Ohhh thoughts so strong I feel them when you're gone

And these  
With walks in the park  
And meetings after dark  
A sore sight  
For sore eyes  
We're wild and free  
You've got no place to be

Ohhhh Comes down to hope  
Came down on me
