Walking down the street  
Heading for a brand new day  
People come and go  
Destination who can say  
Is there someone you love  
Do you worship above  
In your eyes is it perfectly clear  
I start to wonder

Do you feel it, do you feel it  
Do you need it, do you need it  
Don't stop to think about it  
It's just a day in your life

Day in your life  
Ain't nothing but a day in your life

Do you feel it, do you feel it  
Do you need it, do you need it  
Don't stop to think about it  
It's just a day in your life
