Come and be, wash over me  
Open my heart to You alone  
When I am weak, You meet my need  
Finish the work You started here

I lift my life to You now  
I'll raise my voice to sing Your praise  
I will follow Your commands

Find me here, calm my fear  
Strengthening hope inside my heart  
Teach me Lord, to know Your Word  
Let it be alive in me, alive in me
