Breaking the skyline comes a new day  
Chasing the cold in my bones away  
Take my hand are you going my way  
It's gonna take all of your heart  
This morning I woke up and just started walking  
Left it all behind to believe in something  
Can't see where I've been only where I'm going  
It's gonna take all of my heart  
One for another, love  
(I know that we can be together)  
One for another love  
(It's not too late for us to start again)

Do you confuse coincidence and fate  
Are you at the wheel, are you in the wake  
Is the ransom paid for saving grace  
Can you say with all your heart  
That love is waiting here for you to choose  
Will you leave behind all that you've been through  
So much more to gain than you stand to lose  
Can you say with all your heart

One for another, love  
(I know that we can be together)  
One for another love  
(It's not too late for us to start again)  
One for another, love  
(Let our hearts be turned toward each other)  
One for another love  
(It's not too late for us to start again)

Breaking the skyline comes a new day  
Chasing the cold in my bones away  
Take my hand are you going my way  
It's gonna take all of our heart
