"Lovin'"

Visit "[Lovin'](#)" on MotoLyrics.com

Comin', when I should stay away
I am callin', I should hang up and say
I say nothin', that's what I wish I was feeling for you

Waitin', now I'm waitin' on you
To get somethin' I know you want from me to
And that's lovin', that's what we both want to do

And if you asked me to turn away then I would've left
Go our separate ways and try to forget
Live and let live, call love a myth

But if you asked me to be your man
You know that I would
At times it slipped through our hands but it's done us
good
It's done us good

Waitin', now I'm waitin' on you to get somethin'
I know you want from me to and that's lovin'
That's what we both want to do
