You put a spell on me  
Cursed me, got a sudden beam  
And I know what it means  
I'm not a sinister she smiled  
Just caught a little off guard by being with you

You got me feelin' strange  
Pins and pains that I cannot explain  
I can't explain  
You must be using witchcraft

We met on Monday morning  
By Monday evening, I had found  
She had a reputation  
Miss Firey Hair is gonna push you down

She's got me sayin' something  
I never thought that I'd be saying again

I can't explain

I saw the dark black cat that crosses my path  
Got the mystic train that rolls up the track  
It must be witchcraft for you to do someone like that  
It must be witchcraft for you to do someone like that

You got me feelin' strange  
Pins and pains that I cannot explain  
You got me sayin' something  
I never thought that I'd be saying again

I can't explain  
You must be using witchcraft
