Baby girl, you've got me wrapped
Around your finger, baby girl
Oh, no, I'm not afraid to tell ya
You rock my world
What would you do
With a heart like mine...

'Cause I don't really care,
Yeah, laladududududedayay,
Hey, yeah...

Oh,
And I've seen your pink boots walking,
You got all the young boys talking
You convince the sunshine
To turn into the rain
I don't usually chase a lady
But, right now, it might seem shady
I hate to say it, but I think it's time
For you to leave those boys behind

The big difference 'tween me and them
Is I can love you the right way, baby girl
You've got me wrapped
Around your finger, baby girl
Oh, no, I'm not afraid to tell ya
Ya rock my world
What would you do
With a heart like mine

I don't really,
And I don't care about you and them
'Cause I can love you the right way
And I don't care about you and them
'Cause I can love you the right way
Come on, boy...

The big clock on the wall is ticking
And you're the only one I'm missing
A guy like me
Ain't gonna pass you everyday,
Yeah...

The big difference 'tween me and them

Is I can love you the right way, baby girl
You've got me wrapped
Around your finger, baby girl
Oh, no, I'm not afraid to tell ya
Ya rock my world
What would you do
With a heart like mine

I don't really,
And I don't care about you and them
'Cause I can love you the right way...

Baby girl, you've got me wrapped
Around your finger, baby girl
Oh, no, I'm not,
I'm not afraid to tell ya, baby girl,
Yeah, you've got me wrapped
Around your finger, baby girl,
Oh, no, I'm not,
I'm not afraid to tell ya
Ya rock my world
What would you do
With a heart like mine

Baby girl, you've got me wrapped
Around your finger, baby girl
Oh, no, I'm not afraid to tell ya
Ya rock my world
And what would you do
With a heart like mine,
Yeah, yeah, yeah...

Yeah, yeah,
And I don't care about you and them
'Cause I can love you the right way
And I don't care about you and them
'Cause I can love you the right way,
Yeah, and I don't care
About you and them
'Cause I can love you the right way,
Uuh...
