I'm not gonna cry this Sunday morning  
I was hoping if the sky falls in  
It would still let me stand  
One little pill, big dreams dissolving  
It's hard to hold them  
I hit the wall so hard  
I took the skin off my hands (took the skin off my  
hands)  
It's not who I am, just glad to be still

### CHORUS

I really see when I close my eyes  
Life will be my motorbike  
I'll ride it into the sunset  
Let the wind blow dust from me  
My journey as it comes  
I see fit, I do not run  
I'll face it  
Look it in the eyes until it bows to me  
Fears gonna bow to me  
Fears gonna bow to me (yeah)

I'm not gonna share my life with torment  
It must be different  
And if the sun burns out  
I will still warm my hands  
A dream will light the furnace  
When they say it's hopeless  
It's only hopeless  
when someone cannot dream (oh yeah)  
(burn inside of me we can be still)

### CHORUS

I really see when I close my eyes  
Life will be my motorbike  
I'll ride it into the sunset  
Let the wind blow dust from me  
My journey as it comes  
I see fit, I do not run  
I'll face it  
Look it in the eyes until it bows to me  
Fears gonna bow to me

Fears gonna bow to me (yeah)  
Fears gonna bow to me (woo- yeah)

I lived, I've died  
I've laughed and cried  
I've touched the world  
I've crashed and burned  
Fucking bitch who gives a shit  
I've lost it all and made it back  
If pride is light can fade to black  
I feel my blood coming back

#### CHORUS

(Oh)I really see when I close my eyes  
Life will be my motorbike (ride it)  
I'll ride it into the sunset  
My journey as it comes  
I see fit I'll never run  
I'll face it  
Look it in the eyes until it bows  
I can see when I close my eyes  
Life will be my motorbike (life will be my motorbike  
gonna ride it)  
Into the sunset (into the sunset oh)  
Look it in the eyes until it bows to me (yeah)  
Fears gonna bow to me (yeah)  
Fears gonna bow to me (fears gonna bow to me oh)  
Fear's gonna bow to me (all my fears gonna bow gonna  
bow to me)

Fear's gonna bow to me (REPEAT x 4)

Gotta make love again
