"Lucky Day"

Visit "[Lucky Day](#)" on MotoLyrics.com

Never know just when life changes suddenly
Even when you're down
You can start again looking out honestly
You can turn it around
I saw your face and the sky opened up
You smiled at me

You could be the one to bring back the sun
You could be the one who makes me feel whole again
Somewhere in my life I lost my way
Some might say this could be my lucky day
It could be lucky day

The empty glass of wine
Thinking about lonely time
Ain't not here any more
You really find who I am
Understand what I've been thru before
I saw in you something beautiful and pure
And you kissed me

You could be the one to bring back the sun
You could be the one who makes me feel whole again
Somewhere in my life I lost my way
Some might say this could be my lucky day
It could be, I can feel, no it's real
