Pain can create energies like hate  
Just like a grain of sand, becomes a pearl  
Pain, pain can hide the love we keep inside  
Just like a mountain can hide a thousand worlds

As a tear rolls down my face  
Love takes it's place  
And as I cry, another demon says goodbye

Goodbye, goodbye another demon says goodbye etc.

Pain can mean revenge  
When it's better to make amends  
Just like the water can calm a fire  
Pain can decide, whether we live or die  
Just like a gun that is ready to fire

As a tear rolls down my face  
Love takes it's place  
And as I cry, another demon says goodbye

Goodbye, goodbye, another demon says goodbye etc.

Groove on, extend your dreams, revenge is what  
Illness needs  
Groove on, and feel the soul  
Take your hate, revenge your fears and  
Let it go

Goodbye, goodbye, another demon says goodbye, etc.
