I will find a way
To find a rose in this winter garden
Even when those devils play with my mind
I'm the one that knows I will find
My Winter Rose, my Winter Rose

Do, do do, do you've gotta use your soul to find it

Kings have lost their way
Through lands of old that were once enchanted
I feel strong today
Smooth like feline, I'm the one that knows I will find
My Winter Rose, my Winter Rose, my Winter Rose, my
Winter Rose

Do, do do, do you've gotta use your soul to find it

Perfection is patient, perfection is patient
I feel strong today
Smooth like feline, I'm the one that knows, I will find
My Winter Rose, my Winter Rose

Do, do do, do you've gotta use your soul to find it
