When I was young
I used to think
Whatever happens
Is meant to be
You don't believe that
I wait around all day for you
You didn't show and then I knew
You were leaving

Wait around
There's something that I gotta tell ya
You won't have long to wait

You don't have to listen
You don't have to say goodbye
You don't have to leave here
Give me one reason why
You don't have to listen
You don't have to say goodbye
You don't have to leave here
Give me one reason why

What if I just count to ten
Close my eyes and open them
Would you be here?
This is all so strange to me
My mouth has tried to hard to speak
But you don't see that
But you don't see that (but you don't see that)

Wait around
There's something that I gotta tell ya
You won't have long to wait

You don't have to listen
You don't have to say goodbye
You don't have to leave here
Give me one reason why
You don't have to listen
You don't have to say goodbye
You don't have to leave here

That's why I'm here tonight

But you sit and watch me lie
As I think of what to say
Try to make sense of it all
Yeah

You don't have to listen
You don't have to say goodbye
You don't have to leave here
Give me one reason why
You don't have to listen
You don't have to say goodbye
You don't have to leave here
Give me one reason why
You don't have to listen
You don't have to say goodbye
You don't have to leave here
Give me one reason why
You don't have to listen
You don't have to say goodbye
You don't have to leave here
Give me one reason why
(Give me one reason why)
