And now for your next selection
I'm gunning for the top
Campaigning in your next election
So g'on ahead and vote for the kid
Million dolla beat man
Yeah, you know who is is

Girl I... don't wanna play around
Cause no... it's not a game
Just let me know... how much you're down for me
Tell me are you down for me girl

Cause there's one thing you should know
I don't... wanna let you go
But I will if you ever play around on me

Ho baby
Please
Please stay true to me
Me
I don't wanna have to leave you
I don't wanna have to go

Baby please don't give my love away
Away
When I'm gone it's not the time to play
To play
I can make the tears roll down you face
Your face
So baby please don't give my love away
Away

Girl I... already know
It's hard' coz I... stay on the road
But I can't stop this uh it's just the way I live
Baby it's the way I live

But I... come back to you
So why the tell you acting so confused
When I'm gone don't play girl it's just the way it is

Ho baby
Please
Please stay true to me
Me
I don't wanna have to leave you
I don't wanna have to go

[Refrain]

So baby don't
Let it happen
Because you won't like if I teach you a lesson
There will be no
Second chances
So don't give my love away

[Refrain]

I'm smart so I don't use muscle baby
I know if I leave I'll crush you baby
If you're Kimora Lee I'm Russell baby
Haters know me I'm hustle baby aay
Some say I'm a hustle-aholic
Studio to stadium, girl, that's my callin'
Record for a little bit
Rock for a little bit
Live for the hell of it
Rock stars never quit

[Refrain x2]
