[Natalia]

He's my number one, he's my number one, he's my number one

He's my number one, he's my number one, he's my number one

[Matt]

They keep telling me don't trust a beautiful girl

But they can't get no girl like me

Sexy like a strip show but she got the brains though

Tagg team she's my M.V.P

They ain't into us, they're so envious

Trying to tell me that my girl is too dangerous

But she's my Mrs P, that's p for perfection

Her attention is all I need

[Matt]

There goes my baby and ain't she the real thing, I got her now...

[Natalia]

He's my number one, he's my number one...

He's my darling and he got my heart set, I'm talking about

[Matt]

She's my number one, she's my number one...

[Matt & Natalia]

They talk sh\*t about me, they talk sh\*t about me

They talk sh\*t about me, they talk sh\*t about me

They talk sh\*t about me, they talk sh\*t about me

Oooohhhh

[Natalia]

All my girlfriends are j j jealous

They don't like my man cause he's g g generous

Thinking that they're way way way ahead of us

They keep telling us it's won't never last

He's a bad influence, they so envious

I think the gravity is stronger' cause I'm falling fast

Two halves make a whole, two hearts make a soul

My body, you're body baby do the math

[Matt]

There goes my baby and ain't she the real thing, I got her now...

[Natalia]

He's my number one, he's my number one...

He's my darling and he got my heart set, I'm talking about

[Matt]

She's my number one, she's my number one...

Cause he gone be my man till the planet has blown up

[Matt]

She's my Venus, galaxy's can't get in between us

We're Adam and Eve with a remix

I'd get her a star from heaven but I can't reach it

I can't find a diamond as beautiful as she is

[Natalia]

We go toge... we go to ge ge gether

[Matt & Natalia]

Don't listen to you will lonely as girlfriends ever,

[Natalia]

Remember baby you're the Ben & Jerry's I'm the cone
