Visit "[Green Grass](#)" on [MotoLyrics.com](https://MotoLyrics.com)

look captured - but calm behind your eyes - why you try  
you break my heart and i can't evolve  
with nature - there's so much less to mind - why you lie  
you break my heart and i can't evolve

on the green grass on the green grass  
under starlight starlight

but this nature - has to be denied - why i try  
and it breaks my heart - that i can't evolve  
i've settled - i've given up desire - why i lie  
and it breaks my heart - that i can't evolve

on the green grass on the green grass  
under starlight starlight
