You've got a dark side, that I can give no light.
Consider this my blessing, this is your dance.
I've got an answer, but I'm sure that it's not right.
Don't follow me down there,
Just stand proud and tall.
And don't worry bout us, we'll be,
Don't worry bout us, we'll be,
Don't worry bout us, we'll be fine.

I got a dark side that I'm sure you have not seen,
It manifests itself behind a smoke screen.
All in a long life, that I've learned these days will pass.
It happens too slow, so we drown,
Drown 'em all.
Don't worry bout us, we'll be,
Don't worry bout us, we'll be,
Don't worry bout us, we'll be fine.

We all have a dark side
That is ours and ours alone
Crawl out of that hole and scream
Damn, damn it all!

Don't worry bout us, we'll be,
Don't worry bout us, we'll be,
Don't worry bout us, we'll be
Don't worry bout us, we'll be,
Don't worry bout us, we'll be,
Don't worry bout us we'll be fine...
