Tilt your head down and smile  
You always do that when you're acting shy  
The most innocent thing ever sang  
The way you gently close your eyes

And I wanna know where you got your beauty  
And why it's taking this long to get to me  
And I wanna know where you get your beauty  
I wanna know, I wanna know, I wanna know

You always act like you're doin' fine  
But I can see the hurtin' inside  
You tell me what's goin on  
The fight, the words and what went wrong

And I wanna know where you get that courage  
And how do you find her within  
And I wanna know how you're still standing  
I wanna know, I wanna know, I wanna know

There's something about you that won't let me let you  
go  
And there's just one more thing that I need to know

Yes I wanna know why you never loved me  
And what was it you saw in me  
And i wanna know if you ever missed me  
I wanna know, I wanna know, I wanna know  
I wanna know, wanna know
