"Your Man"

Visit "[Your Man](#)" on MotoLyrics.com

And I've waited so long to share this with you
A perfect evenin'
Memories for two
And everything you say is safe with me
The start of love never ending
All this love love love love
All this love love love love

So dim the lights babe
Put on some music for me
And do that dance you do
It's like a movie scene
And put your arms high over your head
And let me see just what you've got to give to me
It's your love love love love
All your love love love love

Cause you held me tight in your arms
And with you I can do no wrong
And here I am
Forever your man

So come a little closer
And lay your heart next to mine
Your eyes sparkle and that smile always shines
Everything we do feels so right
Never will I forget this night
And all the love love love love
All this love love love love

You held me tight in your arms
And with you I can do no wrong
And you held me tight in your arms
And with you I can do no wrong
And here I am
Forever your man
And forever your man
