Got no place left but second best
Got no place left but down
Your love came like an airplane
that crashed into the ground

In the ruins of this shortend memory
Impending doom is softly haunting me
We've made a mess this party dress
is torn and stained in blood

Took my good name out of its cage
and dragged it through the mud
Through the darkness I will watch you through
the lens snapping photos for imaginary friends

All Fall Down
for the last time do you slowly drown when you hold me
down
cried out no one answers me lie down laugh yourself to
sleep

I got nothing left but this regret
got nothing left but shame
I took my heart out of its box
I placed it in the flame
In the darkness I will watch you haunting me
Through the violence and the blood shed I will see

All Fall Down
for the last time do you slowly drown when you hold me
down
cried out no one answers me lie down laugh yourself to
sleep

Were searching for the answers
Out in the deep blue sea
Were spreading like a cancer
Acrossed my memory
Give me some radiation
Give me some sense of relief

All Fall Down for the last time

All Fall Down for the last time
All Fall Down for the last time

All Fall Down
for the last time do you slowly drown when you hold me
down
cried out no one answers me lie down laugh yourself to
sleep
