Take a left at the wheat field  
Just before the frog pond  
Follow the tail lights for a country mile  
Park underneath the pine trees turn the radio up loud  
Do a little dirt road dancing for a while.

Better roll your jeans up, gonna want a cold beer  
Might and get a sweetheart, maybe start a fire  
It's gonna be a long night, everybody's gonna be there  
Dirt road dancing when we get tired.

Kicking up dust of the red dirt floor  
Getting down in the great outdoors  
Moonlight fallin all around  
Summer nights make the sweetest sounds  
For a little dirt road dancing.

Shadows in the headlights, couples getting closer  
Somebody's getting lucky out behind the hay  
Ain't talking 'bout two step, ain't talking 'bout do-see-do  
I'm talking 'bout dirt road dancing the night away.

Kicking up dust of the red dirt floor  
Getting down in the great outdoors  
Moonlight fallin all around  
Summer nights make the sweetest sounds  
For a little dirt road dancing.

Kicking up dust of the red dirt floor  
Getting down in the great outdoors  
Moonlight fallin all around  
Summer nights make the sweetest sounds

Kicking up dust of the red dirt floor  
Getting down in the great outdoors  
Moonlight fallin all around  
Summer nights make the sweetest sounds  
For a little dirt road dancing.  
Just a little dirt road dancing.
