Can you feel me Lord, like I feel you now
Can you feel me Lord, kneeling at your feet

'Cause in the night I see your love proclaimed
In the night I feel your gracious hand
And I want to be, to be more like you

Can you see me Lord, like I see you now
Can you see me Lord, lifting up my hands

'Cause in the night I see your love proclaimed
In the night I feel your gracious hand
And I want to be, to be more like you

Can you hear me Lord, like I hear you now
Can you hear me Lord, screaming out your name

'Cause in the night I see your love proclaimed
In the night I feel your gracious hand
And I want to be, to be more like you
