All alone
Where are you
Are we over
Something said
Wish we had
All those good times

Hey, hey where should we go today
I brought you in here to stay
Again, look what we've done today

If I'm going then I'll see the past
I keep on going but I'm feelin' jaded
Don't keep runnin' babe I'll be there in wasteland
Yeah

You start the fight
Don't you leave, it ain't over
The suns so bright
One more life
Let's start over

Hey, hey look where we are today
I wanna make sure you'll stay with me
Look what we've done today

If I'm going then I'll see the past
I keep on going but I'm feelin' jaded
If I'm runnin' then I'll be fine in wasteland
Yeah

Hey, hey look what we've done today
I wanna make sure you'll stay with me
Look what we've done today
If I'm going then I'll see the past
I keep on going but I'm feelin' jaded
If I go there then I'll be fine in wasteland, wasteland
