"Love"

Visit "[Love](#)" on MotoLyrics.com

And love such a silly game we play, oh
Like a summer's day in May
What is love, what is love?
I just want it to be love

And I, I, I, I, I, I can feel it in your kiss
It just gives me tender bliss
What is love, what is love?
I just want it to be love

When I feel you around
I was mad as hell when I hit the ground
When I see you laugh away
It hurts but I just won't say, love

Who can tell me, I am alone
I just think that I am strong
What is love, what is love?
I just want it to be love

When I feel you around
I was so upset, we fell on the ground
When I see you mad at me
It was such a silly thing

Love, such a silly game we play
Like a summer's day in May
What is love, what is love?
I just want it to be love

And I, I, I, I, I, I can feel it in a kiss
It is something I will miss
What is love, what is love?
I just want you to be love
