Take This Girl Away
Girl Away
shes messing with my head
count this skills body body
get enough away

Take This Girl Away
Girl Away

gonna make you mine
gonna gonna make gonna make you mine
gonna make you mine
gonna make gonna make you mine
yaaaay

gonna make you mine
gonna gonna make gonna make you mine
gonna make you mine
gonna make gonna make gonna make you mine

stepping up i got pst teh cure
look on teh dancefloor and caught the viewer
check out teh ladies in teh venduer
not one compares to you its true
sexy lady so d**n fine
champagne baby with a diamond shine
looking like a princess
dress to impress

nothing but the best
so the other girls heart is

girl you dont know that [dont know that]
gonna make you mine
she aint had another
theyre plenty of time

girl you better get to know
gonna make you mine
baby cant you read the sign
my love for you is so

so divine

girl you dont know that [dont know that]
gonna make you mine
girl you dont know that [dont know that]
gonna make you mine

i left the club with you on my arm
turn off my mobile
celluar phone
i hope to be beat till the break of dawn
get a big jiggy till teh early morn
wake up in the morning with you in my bed
swallow my face whats left to be said

baby why couldnt you see the sign
that you were always gonna be mine

Take This Girl Away
Girl Away
shes messing with my head

girl you dont know that [dont know that]
gonna make you mine
girl you dont know that [dont know that]
gonna make you mine

gonna make you
gonna make you
gonna make you
