Everyday I think about what you think about
When you think about me
You gotta know how much I live my life
By the things you taught me
I remember the first time that I saw
You open the door for a lady
It was from the start of things that people comment on
The way you taught me

The thought of the summer brings me there
The thought of the summer brings me there

Things didn't work out
Between me and your mother but
I just want you to know that I did truly love her and
I just can't wait for that one week in summer when
I don't get half a day with you
I get another week with you

(I get another week with you)

Well listen it's coursing what's the point in forcing
'Cos the thought of divorcing scares you
Learnt that the hard way but now I can't say
That it was the right thing to do
When I needed a friend and I need a friend
Unless I knew you'd be right there for me
Even when I think that all we did was drink
Then I see the moral of your story

The thought of the summer brings me there
And I think about it
The thought of the summer brings me there

Things didn't work out
Between me and your mother but
I just want you to know that I did truly love her and
I just can't wait for that one week in summer when
I don't get half a day with you
I get another week with you

The memories blow away
But they come back again
The winters turn to spring
I know you just can't win
Nobody has to stay
Together for the kids
Or for the sake of it
I guess life gets in the way

The thought of the summer brings me there
And I think about it
The thought of the summer brings me there

Things didn't work out
Between me and your mother but
I just want you to know that I did truly love her and
I just can't wait for that one week in summer when
I don't get half a day with you
I get another week with you

Things didn't work out
Between me and your mother but
I just want you to know that I did truly love her and
I just can't wait for that one week in summer when
I don't get half a day with you
I get another week with you
