Did I catch you at a bad time,  
Did I look at you so wrong,  
Please don't slam the doors or smash the windows  
when you're gone,  
Overhearing conversations that I was never meant to  
hear,  
Stomach's turning over as I try to face the world,  
Thank God for what I got well I don't think so,  
Now who's gonna catch you when you fall,  
I know you're gonna call me when you get home

You're at it again, I can't trust my friends,  
Cause they're on the inside, i'm on the out,  
No particular thing,  
It's making me sweat,  
You're make it look easy,  
The harder it gets,  
Where will it end?  
You're at it again,  
I'm over, i'm over, i'm over that  
I'm over, i'm over, it's overrated

You're hanging round with wrong'uns  
They're no friends of mine,  
Got no motivation, starved of oxygen, yeah right,  
I think about your problems,  
But you never notice mine,  
Got plenty of solutions,  
But you're running out of time,  
Thank God for what I got well I don't think so,  
Cause girl what you just said was out of line,  
I know you're gonna call me when you get home

You're at it again, I can't trust my friends,  
Cause they're on the inside, i'm on the out,  
No particular thing,  
It's making me sweat,  
You're make it look easy,  
The harder it gets,  
Where will it end?  
You're at it again,

I'm over, i'm over, i'm over that  
I'm over, i'm over, it's overrated

There's been times where we were there,  
There's been seconds left to spare,  
Honestly, now I don't care,  
Now your face is everywhere,  
I'm over, i'm over, i'm over that,  
I'm over, i'm over, i'm over that,  
I'm over, i'm over, i'm over that,  
I'm over, i'm over, i'm over that,

Did I catch you at a bad time,  
Did I look at you so wrong,  
Please don't slam the door.....

You're at it again, I can't trust my friends,  
Cause they're on the inside, i'm on the out,  
No particular thing,  
It's making me sweat,  
You're make it look easy,  
The harder it gets,  
Where will it end?  
You're at it again,  
I'm over, i'm over, i'm over that  
I'm over, i'm over, it's overrated
