I get the shivers when you talk to me,
But I like it,
It's so ridiculous this fantasy,
So you fight it,
Forget the big romance,
Forget we had the chance,
You're gonna find me sitting out this dance,
Somebody better call an ambulance

Cause instead of you talking,
The shit you don't want it,
It's 3 in the morning,
Every day I know when,
But you're crazy in bed,
When you on me again,
And everyone's talking about you and me,
Can't you see?

Girl my imagination gets,
Better with every cigarette,
It's getting light outside,
So come and take a walk with me,
Girl my infatuation's got,
Desperate for this cigarette,
I'm getting butterflies,
So come and take a walk outside with me

They say it's all about the chemistry,
I don't buy it,
I'm out without my friends what's wrong with me,
This moaning I did,
I say I like your tan,
You say you understand,
That I was in a band,
But you never were a fan

And I like it that way,
At the end of the day,
If you got stuff to say,
Then you say it to me,
If there's something to hide,

Then you know you can't fight it,
But the time of your life,
I'm going down on my knees,
Can't you see?

Girl my imagination gets,
Better with every cigarette,
It's getting light outside,
So come and take a walk with me,
Girl my infatuation's got,
Desperate for this cigarette,
I'm getting butterflies,
So come and take a walk outside with me

With me.....

Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Are you ready to rock me, are you ready to rock me?

Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Are you ready to rock me, are you ready to rock me?

Girl my imagination gets,
Better with every cigarette,
It's getting light outside,
So come and take a walk with me,
Girl my infatuation's got,
Desperate for this cigarette,
I'm getting butterflies,
So come and take a walk outside with me

Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Are you ready to rock me, are you ready to rock me?

Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Cause i'm ready, ready, ready to rock ya,
Are you ready to rock me, are you ready to rock me?
