Oh, little Innocent girl;
So untouched by the world...
Your pureness gives me a feeling of warm comfort.
How long before you're awoken by some beast
screaming of love?
I dread the day for you, even though it will be held
sacred.
For that will most likely be the beginning of your
Transformation, and the point where I will start to fear..
A powerful weapon gained for many uses; you will
learn its
Beauties and faults.
The damage that can be done.
The wars that can be won.
But be careful overnight woman,
It can hurt you too.
Although by then you will also be using it to heal
As we all do
