[Vinia Mojica]

\*Singing in Spanish\*

[Common]

What what, we do this time

Rock rock....

Yes, let this music travel through you

Talk about feelings, yeah yo

Yo wassup world?

Yo what's happening?

It's the C-double-O and I'm back again

Take this back and then, tell a friend

Spaces and places you been, time travelin \*echoes\*

Time travelin \*echoes\*

Yo, I was a piano player in my last lifetime

Now I write rhymes, sip white wine and let my light  
shine

Out the dark space, with the world on my mind like  
Scarface

though my sex drive like a car chase

More than a uhh, it's the piece of mind I chase

Stakes are high, like my uncle is

We both got problems, he never confronted his

Under the bridge I wrote, some shit to stay afloat

And paint a picture, raw like the first coat

Send my old man a note to keep his phone on

My little 'cause'll know cheap tricks are homegrown

Travel to a place sweeter than home, listenin to Nina  
Simone

Repeat this psalm, to the sky I'm keepin my palms

Facin the east, actions macin the beast

Embracin the streets, my god caught a case 'cause he  
beat

His lady down, it's two-thou

That ain't the way we lay it down

Souls get, found and lost at the roads they cross

Many paid dues, but few knew the costs

I ran through the Moss like Randy

Touchindown wit God, close friends, and family

Recognize the voice in the wilderness

Com Sense, '92 and I'm still in this

Time travelin, took my time in hand  
My rhyme learn and plan  
Jealousy, money and pride can burn a man  
Some walk but never learn to stand  
Still, afraid to expand what they feel  
I'm dealin wit, wakes, marriages  
ATM's, Ericsson's  
Loud niggas that whisper carelessness  
If we livin in Revelation  
Why should the people of the sun have to run?  
Come to Esau in a year, he'll have freedom  
He ask why I hadn't been to see him  
Really, I ain't have a good reason  
He said, "Rah, give back what you receivin"  
In a race against time, I was caught  
In the same game as you, but long live the sport  
It's time travelin  
It's the C-double-O and I'm back again  
Take this back and then, tell a friend  
Spaces and places you been  
Time travelin \*fades out\* time travelin....

Time travelin \*echoes\*  
Time travelin \*echoes\*  
Yeah, yo wassup world, yo what's happening?  
It's the C-double-O and I'm back again  
Take this back and then, tell a friend  
Spaces and places you been  
Time travelin \*echoes\*
