(Larry Boone/Gene Nelson/Paul Nelson)

I used to love him that ain't no lie

We had a good thing till he said goodbye

Then with one touch you set my heart ablaze

I'm burnin' old memories with a brand new flame

A perfect match that's what we are

I'm gettin' over him underneath the stars

The smoke has cleared from the hold he had on me

I'm burnin' old memories with a brand new flame

One by one those old embers burn

You came along when I had no where to turn

Just when I thought I'd never love again

I'm burnin' old memories with a brand new flame

When I'm with you I'm without a doubt

We got a fire I don't ever want to put out

And here with you is where I'm gonna stay

Just burnin' old memories with a brand new flame

One by one those old embers burn

You came along when I had no where to turn

Just when I thought I'd never love again

I'm burnin' old memories with a brand new flame
