Baby you don't know me,
I don't know you,
But I'd like to.
Come a little closer let me put my arms around ya.
I got real life stories,
If only you'd believe me.
I got you love inside me,
I'm not another brother wasting time.

Now just imagine all the times we could be havin',
Are you gonna cater for a smooth little operator?
I got real life stories,
If only you'd believe me.
I got you love inside me,
I'm not another brother wasting time.

Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
Chance on love,
What you got to lose?

Baby I keep it real,
You don't know yet but you soon will.
Come a little nearer and I'm sure you'll see things
clearer.
Its time for you to shake that attitude.
And start to realise,
That I wont wait till sunrise.
I got real life stories,
If only you'd believe me.
I got you love inside me,
I'm not another brother wasting time.

Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
Chance on love,

What you got to lose?
Chance on love,
What you got to lose?

Baby you don't know me,
I don't know you,
But I'd like to.
Come a little closer let me put my arms around ya.
I got real life stories,
If only you'd believe me.
I got you love inside me,
I'm not another brother wasting time.

Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
Chance on love,
What you got to lose?

Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
Chance on love,
What you got to lose?
